

ALL NUTS AND SNACKS INC. QUALITY POLICY

We are executing business in a demanding and competitive commercial market where exacting product performance that we have committed to is expected.

The Healthy Snack Food Products we manufacture at All Nuts and Snacks Inc. must meet or exceed our own exacting standards. More importantly we will be known as the premier healthy snack food manufacturer, and the difference is our exceptional commitment to quality, superior customer service and our dedicated team of talented professionals at every level in our organization. There is no margin for error because we are dealing with food products and our reputation is always on the line. Because the cost of failure is prohibitive, our performance standard is zero defects out the door.

We will always relentlessly pursue perfection while only settling for excellence. We will accept and excel at the product and service challenges we are offered by our valued customers. The responsibility to design, create, manufacture, warehouse, distribute, market and sell the absolute best healthy snack food is imperative to all associates. To perform our work well, to do it consistently, and to do it with pride, necessitates each of us to be responsible for the quality of our own work and take ownership of what we do. Our ability to consistently and predictably deliver high quality healthy snack foods to our customers on time and at a competitive price fortifies our reputation and insures the company's and our own success.

We will comply with all Local, State and Federal regulations and requirements. We will follow our Standard Operating Procedures with a disciplined approach and document all phases of our production to insure complete traceability and transparency. We will maintain a clean and sanitary work environment and follow our GMP's to the letter to promote food safety at all levels. All Nuts and Snacks Management will review the quality procedures and systems to insure they remain current. We will train and educate our associates to operate at the highest level of compliance.

We will achieve and sustain these expectations within a true supportive team environment through a continual process of quality improvement utilizing structured problem solving techniques with a persistent and committed focus to satisfy our customers.
